Professional Profile

LeaAnne Forest provides program implementation, project coordination, and operational support to companies and independent consultants. She organizes priorities, stakeholders, schedules, deliverables, and communications to help clients move recommendations into consistent execution.

Experience

Marketing & Operations Lead

Jerry Forest LLC | 2026-Present

- *Manages business operations and client coordination for specialized process-safety consulting engagements.*
- *Develops proposals, presentations, assessment materials, implementation plans, and client-ready deliverables.*
- *Coordinates project schedules, meetings, milestones, documentation, action items, and client follow-up.*
- *Translates technical recommendations into practical workplans and implementation resources while supporting website content, branding, service packaging, and external communications.*

Associate Director, Chemical Products and Technology Division

American Chemistry Council | 2017-2026

- *Led the Chlorine Panel and chemical-sector initiatives addressing regulatory, technical, and product-stewardship priorities.*
- *Engaged EPA and other agencies while coordinating industry comments, technical submissions, and member data.*
- *Managed committees, consultants, budgets, projects, meetings, and member communications.*
- *Translated complex issues into clear industry positions and executive-ready materials.*

How LeaAnne Supports Clients

- *Implementation support—organizing priorities, owners, milestones, meetings, and follow-up after consulting engagements.*
- *Program coordination—developing workplans, trackers, presentations, templates, and executive-ready materials.*
- *Consultant support—helping independent experts manage proposals, deliverables, schedules, client communications, and business operations.*
- *Stakeholder coordination—connecting leaders, technical experts, workgroups, and external partners around a shared plan.*
